About the Company

BSC Group is a bootstrapped, high-growth organization operating at the intersection of building materials, procurement, and project execution. Since inception in 2011, we have built a strong B2B foundation by delivering reliability, speed, and consistency across thousands of projects. Our model is simple but powerful—integrating sourcing, supply chain, and execution support under one platform.

We are now entering a decisive phase of growth. With expansion into new geographies, strengthening of leadership, and a clear roadmap towards institutional scale, we are building a structure that can support long-term value creation and a potential public market journey. This role is central to that ambition.

Role Overview

The Design Architect will act as a bridge between design intent and execution, ensuring that client requirements are translated into practical and scalable solutions.

Key Responsibilities (KRAs)

- Work closely with clients and internal teams to understand requirements
